## Common Sense Parenting® of Toddlers and Preschoolers

Bridget A. Barnes and Steven M. York, M.H.D.

**C**rying in the checkout lane at the grocery store, squabbling with playmates over a new toy, or refusing to go to bed on time – time-tested Common Sense Parenting skills can help parents handle the day-to-day challenges they face with a young child.

How can parents balance nurturing behaviors that demonstrate love and affection with the discipline all children need to learn and thrive? *Common Sense Parenting of Toddlers and Preschoolers* shows how discipline can be more about teaching than punishment, more positive than negative for both parent and child.

Included in these pages are:

- How to set reasonable expectations based on a child's age, development, and abilities.
- How to give children all the nurturing, love, and praise they need to thrive.
- How to use a parent's version of "show and tell" to both prevent problems and correct misbehavior.
- How to create plans for staying calm for parent and child.

BRIDGET A. BARNES and STEVEN M. YORK have extensive experience training both parents and parent trainers in the Common Sense Parenting program.

## Common Sense Parenting® of Toddlers and Preschoolers

### (Audio Book)

*Handling the Day-to-Day Challenges of Parenting Young Children, Ages Two to Five*

Bridget A. Barnes and Steven M. York, M.H.D.

**T**his helpful and popular guide to negotiating the difficulties of parenting young children is now in audio book format. All of the proven Common Sense Parenting techniques offered in the book are included in these CDs: understanding your child's development, setting reasonable expectations, nurturing your child, correcting misbehavior, using time-out, preventing and dealing with temper tantrums, learning to stay calm yourself, using praise to encourage good behavior, and establishing daily routines and family traditions that give children a sense of stability and security.

Narrator: Ozzie Nogg
