Keynotes & Seminars

Improving Lives Through Education

We Provide Workshops & Training Programs for:

Families:

We teach Common Sense Principles to help families prepare for any emergency situation and to expect the unexpected.

Schools:

We work with faculty and staff so they are prepared to deal with students and parents in every type of emergency.

Churches:

We join Church leaders and volunteers in practicing crowd control, evacuation, lockdown drills and medical emergencies.

Businesses:

We provide training for employees so they are better prepared to deal with customers and clients during a disaster. We also furnish management with the tools to maximize employee performance and reduce absenteeism.

Aloha,
E Komo Mai and Mahalo for reviewing our information.

I sincerely believe in the power of education. I know that knowledge can save lives if we use what we learn to take positive action.

For that reason, I founded 911 Seminars, a training center that provides on-site emergency life saving skills. Our instructors have trained people from all walks of life in CPR, First Aid, the use of the AED, Bloodborne Pathogens, Sports Safety and many other topics. Visit our website at 911seminars.com to see all the workshops we offer for certification.

I also believe that education improves lives. Keynotes & Seminars presents Common Sense Solutions to help you in your daily life, at school or at work. I hope you will take the time to check out the many topics listed here on our brochure which may be of interest to you or your organization.

I look forward to hearing from you and hope that we can be of service.

I wish you success in all that you do,

A. J.
